GET YOUR SWIMSUIT and hiking shoes ready: It’s enrollment time for American Diabetes Association Diabetes Camps! Starting February 1, applications will be available for campers at diabetes.org/camp.

Diabetes camp is more than your average summer camp. It’s an opportunity for kids with diabetes to make friends with other children like them. More than 5,300 campers will enjoy the camp experience of a lifetime this year, while surrounded by trained medical staff and volunteers. Campers enjoy classic camp activities—from crafting to kayaking, rock climbing to sing-alongs—and also learn more about diabetes management.

Camp spaces fill up fast, so find the camp nearest you and apply online soon.
